DIRECTOR'S REMARKS

1979 has been a year of unprecedented growth and change in the insurance industry which has been reflected in increased activity by the Division of Insurance.

The Missouri Division of Insurance has responded to the increased consumer awareness in insurance by strict enforcement of insurance statutes, particularly with regard to unfair claims practices, redlining and cancellations and non-renewals. In addition, we have investigated frauds on the elderly citizens and credit insurance violations.

We regulate 1195 companies doing business within the State of Missouri of which 128 are domiciled in this state. Total premium dollars for 1979 were $3,709,798,633.00.

Missouri has been and remains a no-nonsense business state with an excellent business climate.

The progress of the Division in accomodation of new products, complex risks and insurance availability has been notable this past year.

While still very much concerned with the basic problems of solvency and reliability we have endeavored to be innovative and responsive to the needs of Missouri consumers who deserve the best insurance products at the best possible rate.

I am personally proud of our progress and record of achievement this past year and of the employees of the Division for their efforts and pledge continued cooperation with all companies doing the business of insurance in the State of Missouri in the ensuing years.

Sincerely,

RICHARD J. FREDRICK
Director
Missouri Division of Insurance

In the early years of this decade, the hosptials of our nation faced a crisis - the commercial insurance industry found it necessary to discontinue providing malpractice insurance, or if they continued, at rates the hospitals could not afford. Missouri is one of the few states that dealt with this crisis by special legislation known as Chapter 383. Under that new law, Missouri hospitals organized Missouri Professional Liability Insurance Association (MPLIA) which solved that crisis by promptly offering malpractice insurance to Missouri hospitals at reasonable rates. This program has been so successful that MPLIA is now the second largest writer of medical malpractice insurance in the State (Alfred M. Best & Company data) and has reduced its policy charges each of the three years since it was organized in 1976. Only in Missouri, where the State Insurance Division created the cooperative climate necessary, could this have been accomplished. Missouri is one of the better states in which an insurance company can domicile to solve the problems of this industry.

W. H. O'Bryan, President

American National Property and Casualty Company was domiciled in Missouri in 1973. Its parent company, American National Life Insurance of Galveston, Texas, chose the state of Missouri for the birth of the company for many reasons. Here are a few: Missouri is the crossroads of the Nation, with accessibility to all corners of the United States; it is a progressive state but cherishes its heritage; its people are friendly and receptive to new ideas and represent a good work force; Missouri has fair and equitable Insurance laws.

Gene Ruble. President

National General Insurance Company, a property and casualty company, is located in St. Louis, Missouri, and has enjoyed rapid growth selling to specialized markets nation-wide. St. Louis, with a favorable cost-of-living, is centrally located and one of the best transportation hubs in the United States. Our personnel, including many who have relocated to St. Louis, have found this area to be great for family life with excellent educational and recreational facilities. The Missouri insurance regulatory climate has encouraged the free enterprise system for competitive marketing and growth of additional companies in this state.

Ted Hume, President

MISSOURI HAS COMMISSIONED THE BOYD COMPANY TO STUDY

The Location Oportunities in Missouri for the Insurance Industry

The study documents Missouri's favorable business environment by analyzing the regulatory and statutory climate for the insurance industry, the availability of non-exempt personnel, the cost of living indexes and related quality of life features.

This analysis clearly shows your company the market climate in Missouri. The statutory environment, availability of non-exempt personnel, regulations and operating costs are all analyzed in great detail. Demand and supply factors are presented along with information on purchases of insurance in a sixteen state regional market, personal income, buying income and motor vehicle registrations.

Missouri's Favorable Environment

Central Location — Center of the United States in both geography and population. Within a 500-mile radius, there are 91,000,000 people.

Missouri statutes provide for an "Open Rating System" under which competition and individual company's loss experience and expenses set insurance rates.

Missouri is one of only sixteen states with competitive rating laws, as opposed to the more predominant "Prior Approval" state legislation.

Market Data

Regional market for Missouri — local home office will cover sixteen states.

Purchases of ordinary life insurance in this sixteen-state regional market totalled some $59 billion in 1975, accounting for 31.1% of total United States purchases.

U.S. growth in purchases of ordinary life insurance from 1971-1975 was 42.3%. Growth rate for the hypothetical regional market during the same time frame was 57.5%.

Growth in personal income in sixteen-state region grew by 11.8% on average compared to the overall U.S. rate of 10%.

Population growth of 8.0% promises to provide stimulus for additional sales of insurance.

Since 1971, this sixteen-state area has increased its share of the national market by slightly over 4%.

REPORT OF THE AFFAIRS OF THE MISSOURI DIVISION OF INSURANCE
IN THE DEPARTMENT OF CONSUMER AFFAIRS, REGULATION AND LICENSING

On March 4, 1869, the Division of Insurance was created by an act of the Missouri Legislature to regulate Missouri's insurance industry which then consisted of 52 Missouri insurance companies and 119 foreign companies doing business in Missouri.

During the year 1978, the Missouri Division of Insurance assessed Premium Tax in the amount of $49,891,511; Workmen's Compensation Tax of $5,504,627; Second Injury Fund Assessment of $462,111. In addition, the Division collected $3,555,539.99 in fees making a total revenue collection by the Division of Insurance of $59,413,788.99.

as of July, 1979

Life	574
Fraternal	39
Stipulated Premium	3
Assessment	2
Health Services	8

Mutual Fire	44
Reciprocal	20
Title	16
Town Mutual	4
Farmers Mutual	22
Medical Malpractice	3
Total	1,195

Foreign: 1067 Missouri: 128

The Division consists of eight sections and employs a staff of 86 plus 43 field examiners and maintains two consumer service branch offices, one in Kansas City and one in St. Louis. The sections are Director/Operations; Market Conduct/Consumer Protection; Financial Examination; Legal; Life; Accident and Health; Property and Casualty; and Agent, Agency, and Broker Licensing.

The Division operates to provide services for the consumer and the insurer of Missouri. The Division regulates Missouri's insurance industry, making certain that insurance companies are properly supervised and operating safely for the protection of the policyholders.

ACCIDENT AND HEALTH SECTION

The Accident and Health Section is responsible for the review of policy forms, riders, endorsements and applications offered to the Missouri Insurance Buying Public. Presently, there are eight hundered and four (804) companies licensed to write accident and health insurance in this state. Health insurance policies consist of hospital medical expense, major medical, disability income, hospital cash indemnity loss of time, special coverage policies (cancer) and loss of earnings contracts. Companies also offer policies providing benefits for accident and accidental death and dismemberment coverage.

With the continuous concern for adequate accident and health insurance coverage, there is constant up-dating of policies. The Accident and Health Section received thirteen thousand eight hundred twenty seven (13,827) forms from July 1978 to July 1979. Fifteen thousand five hundred eighty two (15,582) accident and health forms were received and required correspondence. Seven thousand two-hundred sixty forms were approved for sale in Missouri. There were thirty-four (34) new or amending companies seeking approval of forms for a Certificate of Authority or amending Certificate of Authority to conduct the business of health insurance in Missouri. Six new or amending companies were rejected by the Health Section.

The members of this Section were involved in numerous conferences relating to policy provisions and new concepts of accident and health insurance. This Section also responded to the many inquiries from the Insurance Buying Public and other state insurance departments. The Health Section frequently corresponded with the Department of Health, Education, and Welfare (HEW) to stay abreast as to what action was being taken on the national level to improve health care. The Accident and Health Section also avails itself to the other Sections within the Division as well as assisting the Department of Consumer Affairs, Regulations and Licensing (C.A.R.L.).

Blue Cross/Blue Shield who have not been considered an insurance company in Missouri senate and the House of Representatives were brought under tighter regulation by the enactment of House Bill #1447 (Unfair Trade Practices Act). House Bill #1447 as originally passed was expected to provide tighter regulation, however, this was not

accomplished. During the 80th General Assembly House Bill #1447 was amended providing for the regulation of Blue Cross and Blue Shield, as was originally planned. With a massive Federal promotion of health maintenance orgainzations (HMO), this Section is constantly observing and reviewing the feasibility of HMO's in the State of Missouri. At This time we are very concerned with their ability of remaining solvent due to their administration.

During the past year the Health Section has devoted additional time to studies of cost control. This Section worked diligently for the passage of House Bill #808, which would allow the Division of Insurance the authority to regulate rates as well as the contents of Health Insurance contracts. House Bill #808 died in committee, but efforts by this and other Sections of the Division of Insurance will be made to revive and gain passage of this important cost control measure.

CONSUMER-PROTECTION SECTION

In November 1975, Consumer Services and Market Conduct Examinations were merged into one section to facilitate coordination of the inter-related activities of the two sections. The resulting section was orginally called Consumer-Market, but was renamed Consumer Protection in 1978.

Missouri's Market Conduct Program, which began in 1971, is charged with the responsibility of examining all companies licensed to do business in the state. These examinations may include (1) an analysis of Missouri rate structures; (2) a review of individual policy rate applications; (3) a review of policy forms, endorsements and company filings; (4) a review of company selection and termination procedures; (5) an assessment of company claim practices and procedures; and (6) a review of licensing of agents, agencies and brokers, and company marketing activities. Examinations are conducted according to statutory requirements, and may also be targeted to specific problem areas.

Seventy-three companies were examined during 1978, and the results of these examinations were as follows:

Refunds of Missouri policyholders for rate overcharges	$10,939.76
Recovery of claim underpayments to Missourians	32,297.36
Fines and forfeitures for violations of law and improper practices	18,700.00
Estimated licensing fees collected as a result of examination development	2,300.00
Refunds to Missourians for improper calculations of cancellation of refunds	1,500.00

Missouri has strongly supported the National Association of Insurance Commissioners position on coordination of Market Conduct Examinations, and during the year, Missouri Participated with several other states on zone-type examinations.

The Division's Consumer Services, which was reorganized in 1973, to provide greater control over complaints and inquiries and to provide more thorough analysis of insurance problems or questions, is charged with the responsibility of providing consumers with an arena for mediating their complaints and obtaining answers to insurance related inquiries. To fulfill this responsibility, the Division maintains offices in St. Louis and Kansas City, as well as the Jefferson City facility, and all are charged with assisting consumers in accordance with the guidlines of the Missouri Division of Insurance Statutes and Regulations.

It has been the policy of the Division to not only invite but to urge consumers having questions or problems relating to insurance to contact one of our Consumer Services Offices. The attitude has caused complaints and inquiries processed by the Division to steadily increase each year.

During 1978, Consumer Services received and processed 9,105 complaints (a 5.6% increase over 1977), and 35,035 inquiries and assisted Missourians in recovering over $2,000,000 from insurance companies. Since reorganization of Consumer Services, it has assisted in collecting over $12,000,000 for Missouri policyholders.

Also during the year, Consumer Protection provided personnel to work in the disaster centers set up by the federal government in the eastern part of the state. Consumer Services and Market Couduct personnel worked long hours providing information and assistance to Missourians effected by the disaster. We also provided personnel for a disaster center in the south central part of Missouri.

EXAMINATION SECTION

The activities and personnel of the Examination Section of the division of Insurance are under the direct supervision of the Chief Examiner, assisted by the Supervisor of Tax and Audit.

The responsibilities of this Section include the following: (1) a determination of the financial condition of all domestic and foreign companies licensed with the State; (2) to conduct the pre-licensing examination of all newly formed domestic companies; (3) supervision of the activities and operations of all excess lines and non-admitted carriers; (4) to directly supervise the examinations of all domestic companies in Missouri; (5) to initiate the processing of applications for licensing in Missouri of all foreign companies; (6) along with review of monthly and quarterly financial reports; (7) to supervise the operations of the tax and fee section; (8) to assess and effect the collection of all premium taxes and filing fees that may be due the State of Missouri; (9) to assist the General Counsel in matters pertaining to receiverships, hearings for mergers, reinsurance, or sale of companies; (10) to provide the necessary financial reports in matters concerning the new Holding Company Act of 1971; (11) to conduct the necessary training programs for the Missouri Insurance Examiners; (12) the maintenance of all necessary files pertaining to insurance companies and field insurance examiners.

The Chief Examiner arranges for the scheduling of all examinations and assigns the necessary examiners to conduct examinations. The financial examiners are trained to follow generally recognized examination procedures in accordance with the Missouri Insurance Code and NAIC regulations. Their findings are set forth in a condensed written examination report which is reviewed by the Chief Examiner before the filing as a public document. In the event of any violations of the Statutory Law or Regulations, the companies are immediately directed to make the necessary corrections to their method of operations, and if warranted, to arrange for the sufficient contribution to Surplus to protect the policyholders.

The Direct of Insurance has the authority within the Missouri Insurance Code to call for an examination of domestic companies whenever it is deemed to be necessary. The examination schedule for domestic companies has been adjusted in recent years in order to assure that most companies will be examined every two (2) years. In some instances a company may be examined on a yearly basis.

Following is a list of Missouri companies examined during 1978 along with the date the examination covered:

American Educators Life Insurance Company	6/30/78
American Life & Accident Ins. Co. of St. Louis	12/31/77
American National Property & Casualty Company	12/31/77
Blue Cross of Kansas City	12/31/76
Blue Shield of Kansas City	12/31/76
Blue Cross of Kansas City	12/31/77
Blue Shield of Kansas City	12/31/77
Casualty Reciprocal Exchange	12/31/76
Catholic Knights of America	12/31/77
Centurion Life Insurance Company	12/31/77
Community Group Health Plan d/b/a/ Prime Health	12/31/77
Equitable Mutual Assurance Company	12/31/77
Equity Mutual Insurance Company	12/31/76
Farm Bureau Life Insurance Company	12/31/76
Farm Bureau Mutual Insurance Company	12/31/76

Modern American Life Insurance Company	12/31/77
National Home Life Assurance Company	12/31/77
Personal Life Insurance Company	12/31/77
Physicians' Malpractice Insurance Company	12/31/77
Professional Mutual Insurance Company	12/31/77
Reciprocal Exchange	12/31/76
Risk Control Associates, Ltd.	12/31/77
Supreme Mutual Casualty Company	12/31/77
Survivor's Benefit Insurance Company	12/31/77
Transit Casualty Company	12/31/77
Travelers Protective Association of America	12/31/76
Union Town Mutual Fire Insurance Company	12/31/77
United Investors Life Insurance Company	12/31/77
Western Life Insurance Company	12/31/77

In addition to the 44 examinations completed in 1978, the Missouri financial examiners participated in 15 association examinations across the United States. As of December 31, 1978, there were approximately 1192 domestic and foreign companies licensed to transact business in Missouri. this is exclusive of approximately 100 town and county mutuals which have not come under the jurisdiction of the Missouri Division of Insurance. The examination section also closely monitored the financial affairs of approximately 156 of the licensed companies by requiring monthly or quarterly financial statements. In addition, the annual disclosure reports of self-insurance health benefit plans with Missouri participants were also audited.

During 1978 - 1979, two financial insurance examiners attended the Junior Insurance Examiner Training Program with the College of Insurance. In addition, the financial examiners are all required to participate in various casualty and life insurance accounting courses. The training program for auditing with the use of computers is being continually updated to enable the examiners to improve their auditing skills. This requires continued educational training by the field examiners.

During 1978, 34 foreign companies were admitted to Missouri, 6 Missouri companies were incorporated and licensed to do the business of insurance in the State of Missouri.

TAX AND AUDIT: In addition to assisting the Chief Examiner in the aforementioned supervisory and audit functions, this office assessed taxes for premiums written in Missouri during 1978 totalling $55,396,138.37. This total shows an increase of $5,446,127.40 over the 1977 premium taxes.

The receipts from the Second Injury Fund for 1978 totalled $462,111.39. Such assessments are set forth by statute to be compensation lossess and are treated as such.

RECAPITULATION

Premium Tax

SECURITIES SECTION
(As of December 31, 1979)

The Securities Section is responsible for the accounting and control of the "joint" deposits required by the Insurance Laws of the state. Such securities are deposited with the Director of Insurance to comply with various deposit sections of the Missouri Insurance Code or of the convenience of domestic companies applying for admission in foreign states. The deposits are held to guarantee the payments of policy claims and to insure certain rights to policyholders. The deposit requirements vary according to the type of companies; also include the retaliatory section of the statutes. The policy reserve deposit requirement law is the prevailing factor in the total amount of the deposits.

Detailed accounting, audit and control, which includes complete inspection and approval of all documents pertient to each transaction of each company, is required. The investments offered for deposit must be scrutinized as to eligibility and checked to ascertain if the deposit meets or is in excess of the reserve requirements for each individual company. Active account balances are verified with the companies quarterly, all others semi-annually. The Data Processing Unit is used for much of the recordkeeping of this section.

Records in this section reflect the phenomenal growth and financial stability of the industry. The deposits as of December 31, 1968, were $1,123,767,762.56. As of December 31, 1978, they were $2,285,296,267.32, an increase over the ten-year period of $1,161,528,504.76. The records for the year of 1978 indicate that the amount of securities deposit increased $224,751,181.05 over the deposits of 1977. The deposits of 232 companies in all categories at December 31, 1978, amounted to $2,285,296,267.32, invested as follows: Bonds, $1,390,936,990.04; Mortgages, $882,490,903.32; Real Estate, $11,868,373.96.

This section maintains daily control of each company's bonds, stocks, individual mortgages and real estate accounts. Periodic mortgage loan payments are reported to the section by the companies. The exact deposit value of mortgage loans on deposit is available at any time. All securities are kept in safe deposit boxes in St. Louis, Springfield, Jefferson City, and Kansas City, Missouri, to which there is a carefully established method of joint access.

LEGAL SECTION

The Director maintains a legal staff to assist him and other Sections of the Division in the enforcement and interpretation of the insurance laws of the State of Missouri. Division attorneys conduct acquisition hearings, reinsurance hearings and merger hearings. The Division also is represented by legal staff attorneys before the Administrative Hearing Commission concerning revocation of agent, broker and agency licenses and appeals from administrative rulings by the Director of Insurance on refusals to issue such licenses.

The Legal Section assists in the approval of amended Certificates of Authority, amendments to Articles of Incorporation for Domestic Companies, changes in Beneficial Ownership of shares of stock, proxy and information statements, approval of proposals for deposit of deeds of trust and policy reserves and amendments of bylaws of domestic companies. In addition, the Legal Section approves and monitors the admission of foreign companies to do business in the State of Missouri and the withdrawal of companies from this state.

Legal staff attorneys also handle receiverships and conservatorships of insurance carriers. Ancillary receiverships for non-domestic companies are also handled by the Legal Section.

The legal staff attorneys represent the Director of Insurance in all court proceedings not involving criminal matters and excluding those matters by which the Attorney General by Statute represents the Director of Insurance. Voluntary Forfeitures and orders assessing Penalties for violations of insurance company statutes are also among the duties of the Legal Section.

The Legal Section is charged with the responsibility for the enforcement of the Missouri Insurance Holding Company Act under which annual and period filing are made by holding companies and reviewed for conformity with State Statutes.

In the Consumer Servics area, Legal staff attorneys are called upon to assist policyholders in disputes concerning matters of law and policy interpretations and receives referrals from the Consumer Protection Section of the Division of Insurance and from the Department of Consumer Affairs, Regulations and Licensing.

Finally, the Legal Section provides legal advice to the Director of Insurance and other members of the Division on matters affecting Division policy and reflecting interpretation of state and federal laws, as well as drafting proposed legislation and following that legislation through the legislative process.Constant review and redrafting of Regulations and recently enacted legislation is an on-going project of the Legal staff of the Division of Insurance.

LICENSE SECTION

The License Section has the responsibility of that applicants for licenses as insurance agents, agencies, brokers, surplus line brokers and public adjusters meet qualifications as set forth by the statutes; to maintain permanent records for each of the above areas; conduct examinations for agents, brokers and public adjusters; make requested cancellations; issue certifications and clearance letters and process annual renewal of licenses.

In carrying out regular activities, 37,993 agent licenses were issued to already qualified agents. Temporary licenses were issued to 6,361 applicants and 9,414 examination permits were issued to applicants who must pass required examinations to qualify for licensure as insurance agents. A total of 113,968 agent licenses were renewed on July 1, 1978. Insurance companies are required to promptly notify the Division of Insurance upon the termination of an agent's contract. The Licensing Section processed 26,127 license terminations.

Any individual transacting or doing business under any name other than his true name, any partnership, unincorporated association, corporation or other group transacting or doing business with the public or insurance companies as an insurange agent or broker is required to be licensed as an insurance agency. During 1978, 566 new agency licenses were issued and 3,709 agency licenses were renewed. Commissions may be paid to an agency if the company has on file an official copy of the agency license. The Division of Insurance issued 6,568 such official copies of agency licenses to be filed with companies.

A total of 475 individuals passed examinations to qualify for broker licenses and new non-resident broker licenses were issued to 382 persons. With a total of 7,795 broker licenses renewed in 1978.

Newly issued surplus line broker licenses totaled 53 with 123 surplus line broker licenses being renewed. Public adjuster/public solicitor licenses totaled 20.

Several changes have been implemented and Regulations amended during the year to help us more efficiently accomplish our objectives and our responsibilities to both the insurance industry and its consumer.

Total receipts received through the License Section for the fiscal year 1978 approximated 871,103. Included in this figure is 484,472 for agent licenses; 148,580 for broker licenses; $109,031 for examination fees; 122,288 for agencies, public adjusters, and surplus line broker licenses; and 6,732 for letters of clearance and certification.

LIFE SECTION

Since every family in the State of Missouri is in some way affected by life insurance, the Life Section of the Division of Insurance has become more and more important in its increasing effort to regulate the business of life insurance in the best interest of Missouri policyholders.

The Life Section's primary function relates to reviewing all life insurance policy and supplemental forms submitted for approval to assure compliance with the appropriate statutes and regulations and with particular reference to compliance with the Standard Non-Forfeiture Law.

At the request of policyholders, the Life Section completes various actuarial computations for policies issued in prior years, including the determination of non-forfeiture values. Letter of inquiry or complaint are answered by this section in those instances where it is in the best position to provide a reply. Also, as required by statute, this section computes the present value of life estates used by the Inheritance Tax Division of the Department of Revenue.

This section also collaberates with the Director and other members of the Division in the drafting or consideration of proposed new legislation or regulations affecting life insurance, as well as in the consideration that must be given to proposals for new plans of life insurance submitted by the various companies.

When the Division was first organized in 1869, there were eight Missouri life companies doing business in the state. In addition, there were fifty-seven life companies from other states operating in Missouri for a total of sixty-five.

As of December 31, 1978, there were forty-one Missouri life companies and five hundred thirty-three foreign companies, for a total of five hundred seventy-four. In addition, fraternal benefit societies, stipulated premium companies and assessment companies accounted for another forty-six companies, making a total of six hundred twenty companies for which forms must be reviewed. During 1978, six thousand five hundred twenty-seven life insurance policies and related forms were submitted for approval. In order to handle

this workload, the Life Section is presently staffed with a supervisor, two policy analysts and one secretary.

The life insurance industry is constantly devising new ideas, benefits and plans of insurance in a continuing effort to serve more insurance needs and more people. The people of the state of Missouri have certainly been involved in this effort as witnessed by the fact that in 1978, there were approximately 9.4 million life policies of all types in force in Missouri. This amounted to approxmately $62,000,000,000.00 worth of insurance in force on Missouri policyholders.

Perhaps the most significant development in the life insurance industry in recent years has been the development of variable annuities, variable life insurance, adjustable life insurance and separate accounts relating to the variable contracts.

Another area of great growth and change has been in the group and credit insurance field. In recent months, we have seen numberous filings of the Retired Life Reserve contracts. Another areas of considerable activity is in the tax-sheltered and tax-deferred products and Section 79 products. Frequent changes from the federal level with respect to Section 79 products has caused numberous changes in this area.

During this past legislative session, the Life Insurance Solicitation Bill was enacted into law under H.B. 508, with an effective date of January 1, 1980. During this same legislative session, the new Standard Valuation and Non-Forfeiture laws were enacted under S.B. 325, with an effective date of September 13, 1979. Include in S.B. 325 is a new section relating to the non-forfeiture values of individual deferred annuities which we did not previously have. The new Life Insurance Replacement Regulation was promulgated with an effective date of October 11, 1979. All of these factors will contribute significantly to increasing the workload of this section and it appears likely that the number of forms to be submitted will increase substantially with the passage of time.

PROPERTY AND CASUALTY SECTION

The activities in the Property and Casualty Section during 1978, included participating in the meetings of the Governor's Special Automobile Insurance Commission. Although the staff's role was primarily for observation, attendance in the meetings provided the staff with useful prespectives, controversial topics and comprehension of some of the complex issues involved in the automobile insurance system.

Legislation effective in 1978, which had a direct impact on administration by the Section include the Sovereign Immunity law, HB-1650; the Medical Malpractice Association law, Chapter 383; and the increased benefits in the Workmen's Compensation Law, HB-1260.

AUTOMOBILE INSURANCE: The pressure of inflation gave rise to several automobile insurance rate increases. Simultanesously, the administration implemented plans to monitor the rates and to insist that the rate increases be justified. A new Personal Auto Policy Program was approved.

DWELLING AND HOMEOWNERS: There was a significant expansion of the filing and acceptance of policy forms containing simplified language, the "Easy To Read" type of contracts.

COMMERICAL MULTI-PERIL: The combination of nine lines of insurance into a single manual by a large rating organization representing many insurers required an unusual amount of monitoring in the Commercial insurance area.

INLAND MARINE: Revised the Missouri Inland Marine Regulation so that our Builders Risk Rules would not be more restrictive than the nation-wide Marine Definition. The "Definition" is a system designed to classify various risk exposures into a specific line of insurance.

LIABILITY - PUNITIVE OR EXEMPLARY DAMAGES: Based upon policy provisions endorsements filed and subsequently withdrawn by insurers, a debate, revolving around whether or not to include punitive and exemplary damages coverage in various liability policies, reflected uncertainty in the industry. The majority of the insurers probably now include the coverage. There are some exceptions.

LIABILITY - SOVEREIGN IMMUNITY: A new Statute, Sections 537.600 to 537.610 waived soverign liability from injuries arising out of the operation of motor vehicles by public employees, and from injuries caused by a dangerous condition of public property. This liability shall not exceed $100,000 per person or $800,000 per occurence, and the public entity may purchase liability insurance for these limits. New liability insurance increased limit tables had to be publisned for this coverage.

WORKMEN'S COMPENSATION: Following a Public Hearing and, as the result of legislation increasing compensation benefits, and 8% premium rate increase was allowed effective October 1, 1978.

WORKMEN'S COMPENSATION - SELF-INSURERS: Self Insurer's Annual payroll and loss reports were processed, experience rates computed and schedules for the Self-Insurers Premium Tax and Second Inquiry Fund Assessment prepared. The Self-Insurers Tax Schedule follows:

SELF-INSURERS SCHEDULE OF WORKMEN'S COMPENSATION TAX AND SECOND FUND ASSESSMENT FOR THE YEAR 1978

Union Town Mutual Fire Insurance Company, Union

THE EXCESS AND SURPLUS LINES SECTION

The Excess and Surplus Lines Section approves the placement of individual risks in the non-admitted market that are not acceptable to companies licensed in Missouri and not eligible for JUA or Fair Plan. Individuals qualified to procure surplus lines coverage are the holders of a Missouri surplus line broker's license. As of July 1, 1979, 198 individuals are licensed Missouri surplus line brokers.

The surplus line broker is responsible for filing individual risks for approval with this office. There were 6,304 individual risks filed and approximately 3,456 amended filings made on these placements. A five percent tax is assessed on the net premiums written in the non-admitted market which generated $1,861,795.69 for the twelve month period ending December 31, 1978. Also provided in the Missouri Surplus Line Law is the procurement of insurance in the non-admitted market by the insured. On such procurements, a five percent tax is assessed on the net premiums paid by the insured. As of December 31, 1978, the self-procured insureds generated a tax of $48,526.80 as compared to $27,297.06 for the previous year. Total surplus line tax collected for the twelve-month period ending December 31, 1978, was $1,910,322.49.

Fifty-nine eligible surplus line carriers appear on the Missouri Approved Non-Admitted Carrier List. As of July 1, 1978, 11 surplus line carriers have been declared eligible by the Director for placement on this listing. Oregon Automobile Insurance Company voluntarily withdrew from this listing as of January 1, 1979.

Sixty rountine examinations on surplus line brokers have been conducted by two field surplus line examiners employed by the Division. These examinations have revealed $56,052.32 in unreported taxes during the fiscal year.

On March 7, 1979, a public hearing was held to present proposed revisions to clarify procedures to be followed with regard to surplus line insurers not on the Divisions' list of "approved" carriers. Additionally, the proposed revision established guidelines for allocation for tax purposes of premiums written in conncection with risks located in this state. All comments with respect to the proposed revision were given consideration. On May 11, 1979, Regulation 4CSR 190-10.100 went into effect.
